

BEST HANDGUN TRAINING CCW MODIFICATION INFORMATION

Please complete the following information requested on this page.

If you have access to a scanner, that is the preferred method of delivery. I have saved this page as a word document as well, which can be easily edited. You can request it by email.

Scan and Email this to [john@besthandguntraining.com](mailto:john@besthandguntraining.com) and enter the following in the subject line:

CCW Weapon Information for class on \_\_\_\_\_(Month/Day/Year)

Otherwise, you can fax this form back to (916) 209-7014. No cover sheet is required.

Please enter your Full Legal name as it appears on your Driver’s License:

\_\_\_\_\_

Date of the qualifications class with Best Handgun Training \_\_\_\_\_ Returning Student? \_\_\_\_\_

Number of Weapons (up to 3) which you will qualify with on the day of the class: \_\_\_\_\_

Number of Semi Automatics: \_\_\_\_\_ Number of Revolvers: \_\_\_\_\_ County: \_\_\_\_\_

For this next entry, please obtain the information **directly from the weapon, and not from any paperwork**. Please confirm (double check for typos) that the information is correct. Please make sure it is legible (a number 2 should not look like a Z, a number 1 should not look like a 7, etc.). This information will be used for your certificate (although it will be verified and inspected by the instructor), and it will save some valuable class time.

Note: For revolvers, open the cylinder, and obtain the model number from the lower set of numbers. For example, the model “Bodyguard” and “AirLite” has another model number which is visible with the cylinder opened. You should specify the numbers as well. If you have difficulty finding these numbers, just do your best, (and make a note of it), and I will retrieve them in class.
